Indicative detail for your tax return for the period from 16/03/2017 to 31/03/2017			
VAT rate carefully indicated	ATI revenue base	Tax-free revenue base	Taxes due
0%	187,86 €	187,86 €	0,00 €

** There are two ways to calculate rounding for VAT: add article lines of rounded figures or add article lines and calculate a rounded figure. The choice made here is to apply the rounding calculated from the sum of all ATI lines. Whatever the method used, a discrepancy of a few cents may occur as explained in this article: <http://bit.ly/28KDFiE>

*** In the event you have indicated a wrong VAT rate in Weezevent interface, we invite you to use only the box "Tax-free revenue base" for your tax return, since the tax rate cannot be changed once sales have started.
